Point to each part as you say the words. Ask children to repeat.

Ask the children to look at the other potato heads and count parts of the face.

Ask the children to try to point to the correct potato head as they listen to the descriptions you read.

Pause after each description to give them time. Elicit possible answers but don't confirm.

Read the first description again and point to the example. Read the rest of the transcript, pausing to give the children time to write the number in the box.
